## Three-Bedroom End-Terrace Home in Millbrook Listed for £290,000

July 27, 2025

— Categories: Real Estate

A spacious three-bedroom end-of-terrace property has come onto the market in Millbrook, offering families and first-time buyers a move-in-ready home packed with modern features, a practical layout, and excellent access to schools, shops, and transport links. Listed by Connells estate agents, the home is priced at £290,000.

Positioned on Lower Brownhill Road, the property is ideally situated for those seeking both convenience and comfort. Connells describes the home as a “fantastic opportunity to

secure a move-in-ready home with space, style, and unbeatable convenience.” It will likely attract significant interest with local amenities and well-regarded schools nearby.

At the heart of the home is a generously sized lounge stretching the full length of the house, complete with a dedicated dining area. Double doors at the rear lead out onto a private garden, allowing natural light to flood the space and offering easy indoor-outdoor flow, perfect for entertaining or family life.

In addition to the main reception space, there is a separate dining room that provides modern living flexibility. This extra room could serve as a home office or a cosy snug, catering to the changing needs of working families or those who require more privacy and quiet during the day.

The kitchen has been fitted with sleek black units and features ample built-in storage. It comes with freestanding appliances and an integrated fridge, maintaining a clean and functional appearance. There is also direct access from the kitchen into both the garden and dining room, further enhancing the home’s practical layout.

Upstairs, the property continues to impress with three well-proportioned bedrooms, all offering built-in storage. The contemporary bathroom has recently been updated and features a new bathtub, basin, and integrated storage solutions. A separate, newly refurbished water closet (W/C) is conveniently located next door, offering additional family comfort.

Recent improvements to the house include new carpets and flooring throughout, an upgraded front door, and a new rear window. Gas central heating and double-glazed windows provide efficient insulation, contributing to year-round comfort and energy savings.

Outside, the garden is laid out to lawn and features a seating area, making it suitable for summer gatherings, children’s play, or simple relaxation. For those who drive, the property includes driveway parking for two vehicles, a highly desirable asset in this part of Southampton.

The home is within close reach of several reputable schools, including Holy Family Catholic Primary School, Mansel Park Primary and Nursery School, Redbridge Primary School, and Oasis Academy Lord’s Hill. Healthcare services, supermarkets, and everyday shops are also nearby.

Transport links are a key highlight, with regular bus services into Southampton city centre and easy access to the M271 and M27 motorways. Rail travel is equally accessible, with Redbridge, Totton, Millbrook, and Southampton Central railway stations all within 2.9 miles or roughly 4.7 kilometres.

Connells advises prospective buyers that all details, including measurements, should be independently verified before incurring any costs. They also note that appliances and fittings have not been tested.

With its blend of space, style, and strong location credentials, this Millbrook home presents a compelling option for families seeking value and comfort in Southampton's property market.
